CoolingBridge

Start-ups and Industry Collaboration for Cooling the Future Sustainably

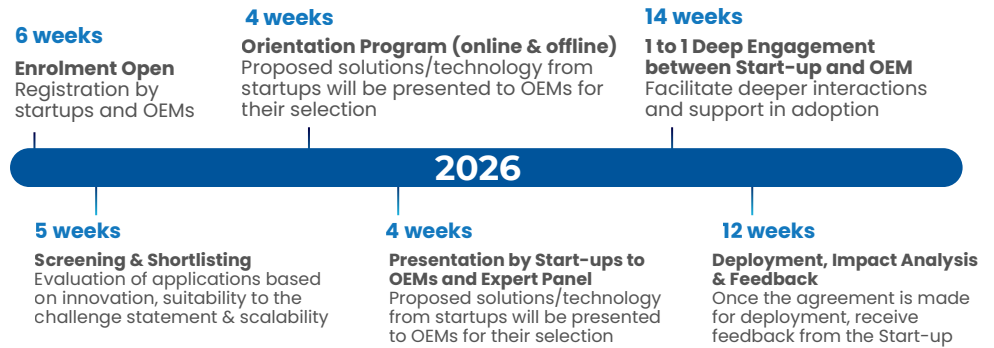

About CoolingBridge

CoolingBridge is GCC's flagship program. It accelerates sustainable cooling innovations by connecting OEMs with startups for easier technology adoption, while empowering startups and boosting OEM R&D investment.

Focus Areas

-  **Comfort Cooling & Air Conditioning**
-  **Industrial & Process Cooling**
-  **Cold Chain & Refrigeration**
-  **Sustainable & Alternative Cooling Solutions**

CoolingBridge Program: Cohort 1 Timeline

OEMs	Start-Ups
Enrolment	
<ul style="list-style-type: none"> Manufacturers of cooling equipment/components Open to adopt/tie-up with start-up solutions 	<ul style="list-style-type: none"> Registered Start-Ups. Start-ups with TRL > 6 are highly encouraged for enrolment. Team Size: Minimum 2 full-time members/directors (including founders/co-founder)
Benefits	
<ul style="list-style-type: none"> Distinctive Competitive Advantage Strategic Partnerships & Networking Opportunities Enhanced Industry Leadership Design & Operational Efficiency 	<ul style="list-style-type: none"> Start-ups gets full access to Industry challenges/technological gaps in particular equipment/component related to cooling/allied cooling/energy efficiency activities. Engage with OEMs to implement and scale up solutions. Enhance Startup Visibility Through GCC. Participate in High-Level National/International Expos.

Expert Panel

-  **Prof Milind V Rane**
IIT Bombay
-  **Prof M P Maiya**
IIT Madras (Retd)
-  **Mr G C Modgil**
Sterling India
-  **Dr Nihar Shah**
LBNL, USA
-  **R & D Heads from OEMs**

Start-ups primarily focused on heating, cooling, HVAC, controls, and IoT are welcome, along with those in any domain that can make cooling more affordable, accessible, & sustainable.

FAQs

At what stage can startups apply for the Program?

Start-ups exceeding TRL 6 are highly encouraged to enroll, as they demonstrate the maturity required for immediate industrial scaling.

Which sector startups can enroll for the Program?

Predominantly, start-ups those are in heating/cooling/HVAC/Controls including IOT but not limited to areas those can enable cooling more affordable/accessible/sustainable

Registration for Startups

Registration fee: **Rs. 20,000/- (+ Tax)**

Payment Gateways: CII/GBC

Registration for OEMs

Registration fee: **Rs. 5,00,000/- (+ Tax)**

Payment Gateways: CII/GBC
